| CONSUMER PRODUCTS DIVISION |

"Millions of families are using our products."

We are supplying your company with certified quality products from all around the world to reduce your production costs and increase your sales."

T. Liu, Director of purchases
Consumer Products Div.
GTGlobe Asia

- Polymer products
- Consumer goods

Mission

Commercialising consumer products mainly imported from Asia and designed to our clients' private labels specifications. Our products are quality certified and meet all the market standards.

Our expertise

Our main expertise is in products made from plastics and from latex.

The GTGlobe difference

All our products are thoroughly inspected and have passed through different quality filters that are all managed by strict inspection methodologies.

We are committed to get you the right product, the right quality and to deliver it at the right place. We carry your products from the minute that you tell us your needs to the moment we deliver it to your warehouse.

Your top quality products

Plastics

Plastic and resealable bags, plastic wrap, plastic containers, and other mass market products.

The GTGlobe expertise

More than 20 years of experience in business consulting in the international markets

Your market opportunities

Increasing your profits
Lowering your production costs

The Phoenix department

What the Phoenix division does is improve the client's profit margin by helping the management team in place to review, analyze and improve their business processes which leads them to realize the company's true potential.

As a proof of efficiency, Phoenix has worked on a mandate in a zinc mine in Chile where the directive was to increase the production by 30%. After 3 months of collaboration, Phoenix has increased the production capacity by 70%.

División de Mercancías

| COMMODITIES DIVISION |

"We design, innovate, commercialize and lead, where others just follow."

V. Tan, Director of purchases
Commodities Division
GTGlobe Asia

- Mineral and Metal commodities
- Chemical products
- Recycling Polymers

Mission

To act as the head of the commodities industry in order to supply our clients. With our expertise and solid structure the outcome is a riskfree undertaking.

Our forces

Purchasing power

Our major force is residing into a purchasing power and a deep knowledge of the commodities market. With strong relations with important countries such as China, Brazil, and Indonesia, we have a significant advance on the market because of our direct control on the production. Moreover, our strategic partners are part of the team.

Sales force

Our sales force has been developed with reputed and know-ledgeable people. Our presence in Asia and on-site team maintains strong relations well established. Our primary goal is to maximise your profitability.

The GTGlobe innovation

In other words, we create individual solutions for individual clients. Depending on your requests, we are the solution to your supply needs or we are your sales force.

You need it, we have it.
